

Safety Data Sheet (SDS)

Reviewed on 05/06/2015

Trade Name: AAD Amino Acid Digester

Section 1: Identification

Product/Chemical Name: AAD Amino Acid Digester
Chemical Formula: Proprietary Enzyme Formula
CAS Number: N/A.
Other Designations: None
General Use: Digestion or non-living organics and oils from water.

- Manufacturer:**

Next Generation Water Science
 760 River Oaks Drive
 Fairview, TX 75069
 866-995-9963
www.nextgws.com

Section 2: Hazard(s) Identification

Hazardous Statement:

The precise composition of AAD Amino Acid Digester is proprietary information. A more complete disclosure will be made to an attending physician in the event of a medical emergency involving this product. When utilized in accordance with Next Generation Water Science, AAD is considered to be environmentally safe, nontoxic and nonhazardous.

Precautionary statements:

Wear protective gloves/protective clothing/eye protection/face protection.
 Wash thoroughly after handling.
 Specific treatment (see on this label).
 Take off contaminated clothing and wash before reuse.
 If skin irritation occurs: Get medical advice/attention.
 IF ON SKIN: Wash with plenty of water.

Classification system:

NFPA ratings (scale 0 - 4)

Health = 1
 Fire = 0
 Reactivity = 0

HMIS-ratings (scale 0 - 4)

Health = 1
 Fire = 0
 Reactivity = 0

Section 3: Composition/Information on Ingredients

Safety Data Sheet (SDS)

Reviewed on 05/06/2015

Trade Name: AAD Amino Acid Digester

- CAS Number: N/A
- AAD Amino Acid Digester is an aqueous solution comprised of a mixture of enzymes as the primary mechanism for digesting non-living organics and oils from water.. The exact formulation is proprietary and a trade secret.

Section 4: First-Aid Measures

- Description of First Aid Measures:

Inhalation: In the improbable event of product inhalation, remove the affected individual to fresh air and provide fresh air or artificial respiration as required. Obtain medical attention.

Eye Contact: Flush thoroughly with water for five minutes and obtain medical attention if irritation of eye membranes persists.

Skin Contact: Wash contacted areas with soap and water, apply emollient skin cream to minimize dryness and seek medical attention if irritation persists.

Ingestion: Drink several glasses of water. Obtain medical attention.

After first aid, get appropriate in-plant, paramedic, or community medical support if exposure symptoms persist.

Note to Physicians: Under normal use and human exposure conditions, the product is considered nontoxic and nonhazardous.

Special Precautions/Procedures: None.

Ingestion: With substantial and/or long term ingestion of the as-received product, possible delayed blood clotting, sensitivity to heat, skin itching, increased odor and taste awareness, and liver damage.

Carcinogenicity: IARC, NTP, and OSHA do not list AAD Amino Acid Digester or its components as carcinogens.

Medical Conditions Aggravated by Long-Term Exposure: None known.

Chronic Effects: There are no known chronic effects except as indicated above under Acute Effects.

Section 5: Fire-Fighting Measures

Flash Point: None.

Flash Point Method: N/A

Burning Rate: N/A

Autoignition Temperature: N/A

LEL: N/A

UEL: N/A

Flammability Classification: Nonflammable.

Extinguishing Media: N/A

Unusual Fire or Explosion Hazards: None.

Hazardous Combustion Products: Thermal oxidative decomposition of the product may release toxic fumes of hydrogen chloride and metal oxide.

Fire-Fighting Instructions: Do not release runoff from fire control methods to sewers or waterways.

- **Fire-Fighting Equipment:** Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full facepiece operated in pressure-demand or positive-pressure mode.

Section 6: Accidental Release Measures

Safety Data Sheet (SDS)

Reviewed on 05/06/2015

Trade Name: AAD Amino Acid Digester

Spill /Leak Procedures:**Small & Large Spills**

Containment: For all spills, pick up mechanically and place in suitable container for disposal. Do not release into sewers or waterways.

Cleanup: After product recovery and removal, flush spill area with water to a sanitary sewer.

- **Regulatory Requirements:** Follow applicable OSHA regulations (29 CFR 1910.120).

Section 7: Handling and Storage

Handling Precautions: Wear appropriate eye and glove protection to minimize personal exposure.

Storage Requirements: Do not store with oxidizing or acidic materials. Keep containers tightly sealed, store at temperatures below 120°F.

Regulatory Requirements: None established

Section 8: Exposure Controls/Personal Protection**Engineering Controls:**

Ventilation: In the event of product misting, provide general or local exhaust ventilation systems to minimize airborne concentrations.

Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

Administrative Controls:

Respiratory Protection: If product misting occurs, follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear a MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. . If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit-testing, periodic environmental monitoring, maintenance, inspection, cleaning, and convenient, sanitary storage areas.

Protective Clothing/Equipment: Wear chemically protective gloves to prevent prolonged or repeated skin contact. Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

Safety Stations: Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Contaminated Equipment: Separate contaminated work clothes from street clothes. Launder before reuse. Remove material from your shoes and clean personal protective equipment after use.

- **Comments:** Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics. **KEEP AWAY FROM CHILDREN.**

Section 9: Physical and Chemical Properties

Safety Data Sheet (SDS)

Reviewed on 05/06/2015

Trade Name: AAD Amino Acid Digester

Physical State: Liquid

Appearance and Odor: Clear light amber with little or no odor.

Odor Threshold: Not determined.

Vapor Pressure: Not determined.

Vapor Density (Air=1): Not determined.

Formula Weight: N/A Density: 8.52 lbs./gal..

Specific Gravity (H₂O=1, at 4 °C): 1.02

pH: 4.0 -5.0 Typical

Water Solubility: Completely soluble.

Other Solubilities: Insoluble in hydrocarbons.

Boiling Point: > 212°F.

Freezing Point: < 30°F.

Viscosity: Not determined.

Refractive Index: Not Determined.

Surface Tension: Not Determined.

% Volatile: Not Determined.

Evaporation Rate: Not Determined.

Section 10: Stability and Reactivity

Stability: CV-600 is stable at room temperature in closed containers under normal storage and handling conditions.

Polymerization: Hazardous polymerization cannot occur.

Chemical Incompatibilities: Do not store with oxidizers or acidic agents.

Conditions to Avoid: N/A

Hazardous Decomposition Products: Thermal oxidative decomposition of AAD can produce fumes of hydrogen chloride, and oxides of carbon, and nitrogen

Section 11: Toxicological Information

Safety Data Sheet (SDS)

Reviewed on 05/06/2015

Trade Name: AAD Amino Acid Digester

Toxicity Data:**Eye Effects:** As received, irritation of eye membranes.**Skin Effects:** As received, irritating**Ingestion Effects:** See Potential Health**Acute Inhalation Effects:** Human, inhalation, TC_{Lo}: Not established.**Acute Oral Effects:** Rat, oral, LD 50: Not Established**Chronic Effects:** None known.**Carcinogenicity:** None known.**Mutagenicity:** None known.**Teratogenicity:** None known.**Section 12: Ecological Information (non-mandatory)****Ecotoxicity:** Specific data not established. Under prescribed conditions of use, will not be toxic to mammalian, reptilian or piscine species.**Environmental Fate Environmental Transport:** Water or soil.**Environmental Degradation:** Not established.**Soil Absorption/Mobility:** Not established.**Section 13: Disposal Considerations (non-mandatory)****Disposal:** Contact Next Generation Water Science, your local supplier or a licensed contractor for detailed recommendations. Recovered spilled product may be disposed of by either or incineration. Follow applicable Federal, state, and local regulations.**Disposal Regulatory Requirements:** None.**Container Cleaning and Disposal:** Thoroughly clean empty containers with water and recycle or dispose of. Do not use empty containers for food storage.**Section 14: Transport Information (non-mandatory)**
